info@biplanglobal.com

Dear Madam/Sir,

My name is Saolee Leng, a second-year student from PNC. After receiving the information which you are looking for Network Engineer for your company, I'm interested with your company, so I would like to apply for the position of a **Network Engineer**.

Best on my school projects such as Project M3.1 and Project M3.2, I get a lot of experiences working as a team leader and find techniques to reach the good result of those projects. I could apply my soft skills such as time management, task management, problem solving, critical thinking, responsibility, note-taking, and communication on those projects. As for hard skills, I could apply some languages such as Microsoft Office (word, excel, PowerPoint), Microsoft, Linux, Cisco, Operation System, Computer Architecture, and Cloud Computing.

Beside school projects, I joined a lot of workshops such as leadership, internship/career, problem solving, etc. These workshops bring me to be a strong person. I can get them to apply into the different situations. Due to some tasks provided by teachers, I strongly believe that I can work for your company with this position (Network Engineer).

I am sure that my resume will be considered. Please kindly contact me through my email or phone. Thanks in advance, and I'm looking forward to hearing from you soon.

Best regards,

Saolee Leng
