Dear **Ms. Vannary**

I am a student at PNC, and I study in Web Programming. I have known this information from my teacher that your company needs a **Back-End Developer Intern**. I am so interested in applying for this position in your company. I want to improve my skill and learn new in Back-End Development.

With my work and my project in **HTML, CSS, PYTHON, JavaScript, PHP, Database, and Laravel** at school, I have improved a lot my IT skills as HTML, CSS, PYTHON, JavaScript, PHP, Database, Node JS and Laravel, and I have learned from my soft skill such as communication, teamwork, responsibility, problem-solving, time and task management.

Besides homework and my project from my teacher, I have joined a lot of workshops on **communication, teamwork, and project management** provided by PNC's partner or an outside company. Because it can bring me a confident person who can have good communication with other people around me, can manage time and tasks, and solve problems by myself.

From my education and experience background, I believed that I can have the possibility to work in this position. For more information, please contact me by phone number (**097 675 7230/ 089486361**) and email address (**sreyka.thor@student.passerellesnumeriques.org**). Thank you for your time and consideration. I am looking forward to hearing from you soon.

Faithfully yours,

SREYKA THOR
